Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund, of the Lee County Hyacinth Control District (the "District"), as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the Auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Lee County Hyacinth Control District as of September 30, 2015, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 12 to the financial statements, effective October 1, 2014, the District adopted the provisions of Governmental Accounting Standards Board (“GASB”) Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27 and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. Our opinion is not modified with respect to this matter.

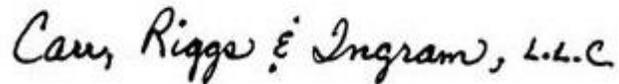

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Lee County Hyacinth Control District Management's Discussion and Analysis

We, as management of the Lee County Hyacinth Control District (the "District"), offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended September 30, 2015. The information presented in this MD&A should be considered in conjunction with the accompanying financial statements.

District Highlights:

- The Lee County Hyacinth Control District is an independent special district, which was created under Chapter 67-1629, Florida Statutes, and recreated under 98-462. It is governed by a seven member Board of Commissioners. The commissioners are elected for a four-year term.
- The District employs eight full-time employees.
- The primary location for operations is at the District headquarters in Lehigh Acres at the old Buckingham Army Airfield. The District and its operations are located in Lee County, which is located on the southwest coast of Florida, near the City of Fort Myers.
- Hyacinth control services were provided to residents and the public at large within the District's boundary in Lee County during the fiscal year ended September 30, 2015.

Financial Highlights:

- The District's assets exceed its liabilities at the close of the fiscal year by \$1,942,929 (net position). Of this amount, \$532,798 (unrestricted net position) may be used to meet the District's ongoing obligations. The district adopted for government-wide reporting the provisions of Governmental Accounting Standards Board ("GASB") No. 68, *Accounting and Financial Reporting for Pensions* and GASB No. 71 *Pension Transition for Contributions Made Subsequent to the Measurement Date*. The adoption of the two standards caused a significant restatement of net position as of September 30, 2014. Total pension related costs using the method required by GASB No. 68 and No. 71 total \$51,560 compared to the General Funds expense of \$64,314 which represented the amount of funds sent to the State of Florida FRS Program
- Total net position decreased by \$194,194 between fiscal years. This decrease is discussed further in the government-wide financial analysis.
- Total liabilities increased by \$90,633 during the fiscal year.
- At the close of the current fiscal year, the ending fund balance was \$2,955,724, a decrease of \$157,448, or 5.05%, from the 2014 ending fund balance of \$3,113,172.
- Of this balance, \$161,243 is non-spendable, consisting of prepaid insurance and inventories, \$343,900 is assigned for the fiscal year end September 30, 2016, budgeted decrease in fund balance and approximately \$2,450,581 is available for spending at the District's discretion (unassigned fund balance).

Overview of the Financial Statements:

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. Most revenue is collected via ad valorem taxes, and the basic financial statements are comprised of the following components: 1) Government-wide Financial Statements, 2) Fund Financial Statements, which include governmental funds that will be described later in this analysis, and 3) Notes to Financial Statements.

Government-Wide Financial Statements:

Government-wide financial statements are intended to allow the reader to assess a government's operational accountability. Operational accountability is defined as the extent to which the government has met its operating objectives efficiently and effectively, using all resources available for that purpose, and whether it can continue to meet its objectives for the foreseeable future.

The *Statement of Net Position* (Page 12) presents information on all of the District's assets and liabilities, with the difference between the two reported as *net position*. The District's capital assets (property, plant, and equipment) are included in this statement and reported net of their accumulated depreciation.

The *Statement of Activities* (Page 13) presents revenue and expense information showing how the District's net position changed during the fiscal year. Both statements are measured and reported using the economic resource measurement focus (revenues and expenses) and the accrual basis of accounting (revenue recognized when earned and expense recognized when cost is incurred).

Fund Financial Statements:

The District accounts for its services in a *general governmental fund*. A *fund* is a grouping of related accounts that is used to maintain financial control over resources that have been segregated for specific activities or objectives. Governmental funds are used to account for the sources, uses, and balances of a government's expendable general government financial resources (and the related current liabilities). The main focus is on how money flows into and out of those funds and the balances left at year-end that are available for spending.

The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The *Governmental Fund Financial Statements* begin on page 14 and provide a more detailed look at the District's most significant activities. An accounting method called modified accrual accounting is utilized to measure cash and all other financial assets that can readily be converted to cash. These statements provide a detailed short-term view of the general government operations and the basic services provided. You will find reconciliations on pages 15 and 17 that convert the data to an economic resource measurement focus and the accrual basis of accounting for use in the government-wide financial statements.

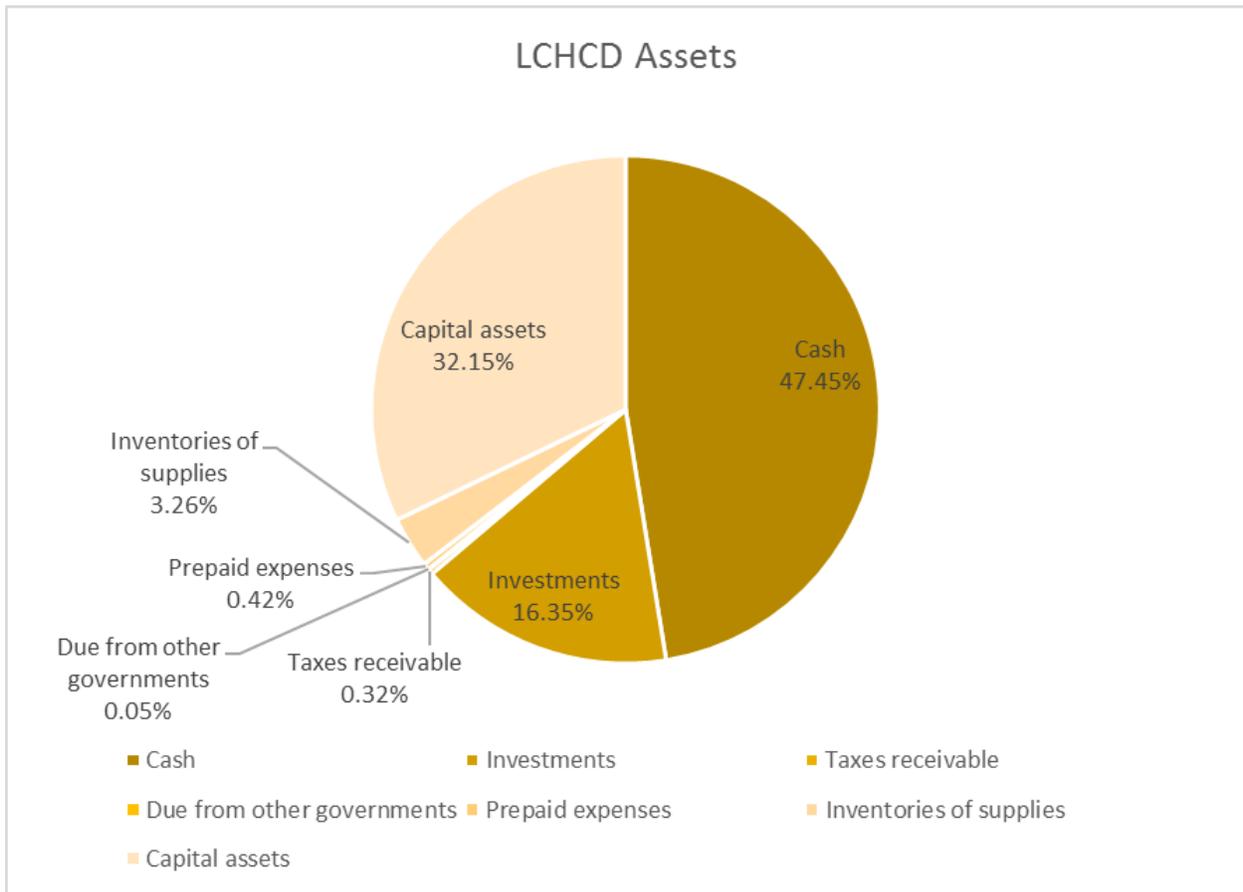

Notes to Financial Statements:

The *notes* to the financial statements explain in detail some of the data contained in the preceding statements and begin on page 19. These notes are essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis:

Net position may serve as a useful indicator of an agency’s financial position. The District’s net position as of September 30, 2015 was \$1,942,929. Its revenues, which include property taxes, investments, and miscellaneous income, totaled \$1,747,568 (general revenue plus program revenue). Total program expenses were \$1,941,762.

Thirty-six percent of the District’s assets represent its investment in capital assets, prepaid expenses, and chemicals inventory. The District utilizes and consumes these assets in order to safely provide effective hyacinth control to the citizens within the District’s boundaries. The assets that remain are invested in deposit accounts with banks designated by the Florida Chief Financial Officer as qualified public depositories.

During the past year, total assets decreased by \$215,369 and total liabilities increased by \$90,633, producing a decrease in the net position of \$194,194, as indicated in the above table.

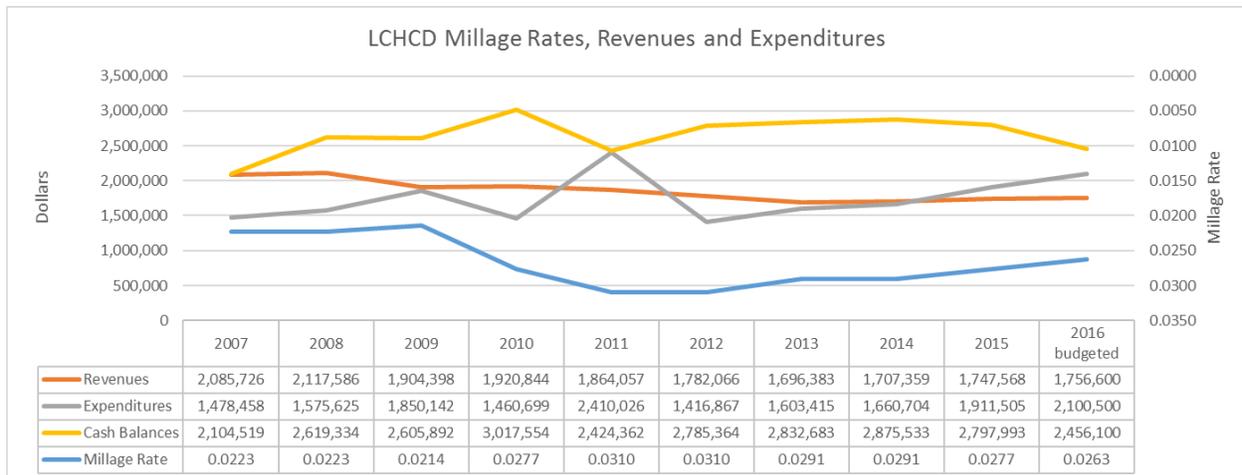

In fiscal year 2015, total fund revenue increased by \$40,209 and total program expenditures increased by \$244,312 from 2014. Miscellaneous revenue increased due to higher interest earnings and proceeds from surplus equipment sales. The balance in cash and cash equivalents decreased by approximately \$78,000 due to fluctuations in the District operating activities. The value of the capital assets decreased in book value due to depreciation expense. Property taxes represent 99.9% of the District's revenues. Personnel Services including operating decreased due to a reclassification of expenses.

The chart above reflects revenues, expenditures, and millage rates for the past nine years and projections for the upcoming fiscal year (FY 2015-2016).

Budgetary Highlights:

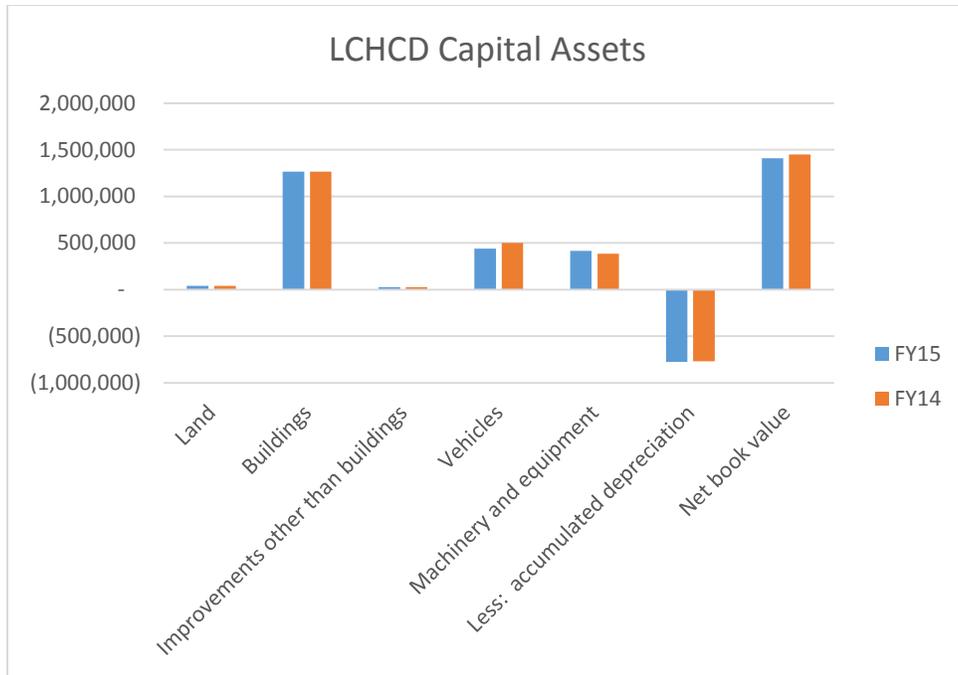

The District adopts an annual budget on a GAAP basis. The budget incorporates input from the Board of Commissioners, District staff, and citizens within the District regarding what services to provide and how to pay for them.

The budget also authorizes the District to obtain funds from identified sources to finance these current period activities. The *Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund* is provided on page 18 and denotes changes in the budget from the original to the final budget. The comparison statement uses the GAAP basis of accounting and is presented using the same format, language, and classifications as the original legal budget document.

Revenue variances from the original budget as compared to the final budget are depicted on page. The difference between the final amended budgeted expenditures and actual expenditures represents a positive variance of \$275,979. The variance is due primarily to changes related to the following budgeted items: reductions in personnel and benefit expenditures, reduction in the purchase of chemical inventory, and operating and miscellaneous supply expenses.

Capital Asset and Debt Administration:

The District’s investment in capital assets at year-end is \$1,410,131 (net of accumulated depreciation) which includes property, plant, and equipment with a threshold of \$1,000 and an estimated useful life of more than one year. Assets are recorded at the lesser of cost when purchased or constructed and at fair value at the date of donation and are depreciated utilizing the straight-line method.

At September 30, 2015, the District had no long-term debt; its other long-term liabilities were comprised of accrued compensated absences and net OPEB obligation payables. A payment of \$250,000 was made to the OPEB trust fund created for Hyacinth retirees in 2015. For more information on accrued compensated absences or Postemployment Benefits other than Pensions, please see Note 1 on page 19 and Note 9 on page 32, respectively, of the Notes to Financial Statements. For more information on capital assets, please see Note 4 on page 25, of the Notes to Financial Statements.

Economic Factors and Next Year's Budget and Rates:

In September of 2015, the Board of Commissioners approved budgeted revenues of \$1,756,600 for fiscal year 2016. The adopted millage rate of .0263 mills per thousand produced Ad Valorem taxes in the amount of \$1,745,600 and an increase of \$24,600 over the prior year. Property taxes are the largest source of revenue for the Lee County Hyacinth Control District.

Contacting the District's Financial Management:

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Questions concerning any of the information found in this report or requests for additional information should be directed to the District Director, Lee County Hyacinth Control District, 15191 Homestead Road, Lehigh Acres, Florida 33971.

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Organization

The Lee County Hyacinth Control District (the "District") is an independent special district created to perform aquatic plant control and elimination in Lee County, Florida, in accordance with Chapter 388, Florida Statutes. The District was created by the Laws of Florida, Chapter 67-1629 and recreated by Chapter 98-462.

The business and affairs of the District are governed by a board of seven commissioners who are elected for terms of four years.

Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, as amended by GASB statements 39 and 61, provide standards for defining the financial reporting entity. A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable. Based on the criteria established in GASB No. 14 and amendments, there are no component units required to be included in the District's financial statements.

Basic Financial Statements

The government-wide financial statements consist of a statement of net position and a statement of activities that report information about the District as a whole. The statement of net position reports all financial and capital resources.

The statement of activities demonstrates the degree to which the direct expenses of the District's program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include: 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given program, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements are presented to report additional and detailed information about the District. Fund financial statements accompany the government-wide financial statements and present a summary reconciliation to explain differences between the data reported in the governmental funds and the data reported for the corresponding governmental activities in the government-wide financial statements.

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus and Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments are recorded only when such liabilities have matured.

Ad valorem property taxes are recorded as revenues in the fiscal year in which the taxes are due and collected within 60 days of fiscal year-end. Intergovernmental revenues are recognized at the time of receipt. Investment earnings are recognized when earned. All other revenue items are recognized when cash is received by the District, as any potential receivable amounts are not significant.

New Pronouncements

In June 2012, the GASB issued Statement 68, *Accounting and Financial Reporting for Pensions* an Amendment of GASB Statement No. 27. The Statement improves accounting and financial reporting by State and Local governments for pensions and provides additional transparency. This Statement is effective for fiscal years beginning after June 15, 2014. The District adopted this Statement for fiscal year 2015. The effects from adoption of GASB 68 include a restatement, see Note 8, of net position and revised note disclosures and required supplementary information (RSI). These items can be found in Note 7, Note 8, and the RSI section of these statements.

In November 2013, the GASB issued Statement 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date* – an amendment of GASB Statement 68. The objective of this Statement is to address an issue regarding application of the transition provisions of GASB No. 68 as they related to pension contributions made subsequent to the measurement date of the beginning net pension liability. The District adopted this Statement for fiscal year 2015. The implementation of this Standard resulted in the recognition of deferred outflows of resources for pension contributions made subsequent to September 30, 2015

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Accounting

The accounts of the District are organized on the basis of a fund which is accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenue, and expenditures, as appropriate. Government resources are allocated to and accounted for in the fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

The following governmental fund is used by the District and is a major fund:

General Fund – The General Fund is the general operating fund of the District. All financial resources, which are not specifically restricted or designated as to use, are recorded in the General Fund.

Budgets and Budgetary Accounting

The following procedures are used by the District in establishing the budgetary data reflected in the financial statements:

1. During the summer, the executive director submits to the Board of Commissioners for their consideration a proposed operating budget for the fiscal year commencing on October 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to October 1, the budget is adopted through a resolution by the Board of Commissioners.
4. Budget transfers and amendments can be made throughout the year by approval of the Board of Commissioners.
5. Budget amounts, as shown in these financial statements, are as amended by the Board of Commissioners.
6. The budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles.
7. The level of control for appropriations is exercised at the functional level.

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets, which include property, plant, and equipment, are reported only in the government-wide financial statements. Capital assets are those acquired for general government purposes with an initial, individual cost equal to or more than \$1,000 and an estimated useful life of more than one year. Donated assets are recorded at their estimated fair value at the date of the donation. The estimated fair value is based on the most recent appraisal documentation available. Maintenance, repairs, and minor renovations are not capitalized.

Capital assets of the District are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Improvements other than buildings	40
Machinery and equipment	5 - 20

Inventories

Inventories, consisting primarily of chemicals, fuels and parts to be used in operations, are stated at the lower of cost (first-in, first-out, method) or market. The District utilizes the purchase method of accounting, which provides that expenditures are recognized when the inventory items are purchased. Reported inventories are equally offset as nonspendable fund balance in the fund financial statement, which indicate that they do not constitute "available spendable resources."

Prepaid Items

Certain payments to vendors represent costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements and expensed as the items are used.

Compensated Absences

The District's employees accumulate sick and annual leave based on years of continuous service. Upon termination of employment, employees can receive payment for accumulated sick and annual leave, if they meet certain criteria. Accumulated sick and annual leave payable at September 30, 2015 was \$103,473, of which \$-0- is estimated to be currently payable.

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensated Absences (Continued)

The amount of compensated absences recorded as expenditures in the General Fund is the amount accrued during the year that would normally be liquidated with expendable available financial resources. Only compensated absences due and payable at September 30, 2015 are recorded on the balance sheet of the General Fund. Both the current and noncurrent portion of compensated absences is reported in the Statement of Net Position.

Fund Balance

In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balance is reported in five components: nonspendable, restricted, committed, assigned, and unassigned.

- **Nonspendable Fund Balance** – Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in a spendable form or (b) legally or contractually required to be maintained intact.
- **Restricted Fund Balance** – Restricted fund balances are restricted when constraints placed on the use of resources are either: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- **Committed Fund Balance** – Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by formal action of the District's highest level of decision-making authority, which is a resolution. Committed amounts cannot be used for any other purpose unless the District removes those constraints by taking the same type of action.
- **Assigned Fund Balance** – Assigned fund balances are amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (a) the District Commissioners or (b) a body or official to which the District Commissioners have delegated the authority to assign amounts to be used for specific purposes. The District Commission has not delegated this authority. Additionally, this category is used to reflect the appropriation of a portion of existing fund balance to eliminate a projected deficit in the subsequent year's budget.
- **Unassigned Fund Balance** – Unassigned fund balance is the residual classification for the General Fund.

**Lee County Hyacinth Control District
Notes to Financial Statements
September 30, 2015**

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance (Continued)

The District uses restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the District would first use committed fund balance, followed by assigned fund balance and then unassigned fund balance, when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Minimum Fund Balance Policy

The District's policy is to maintain an adequate general fund unassigned fund balance to provide liquidity to meet seasonal shortfalls in cash flow, and reduce susceptibility to emergency or unanticipated expenditures and/or revenue shortfalls. The District adopted a financial standard to maintain a general fund minimum unassigned fund balance of approximately three months' worth of operating expenditures.

NOTE 2: CASH

All cash deposits are held by a bank that qualifies as a public depository under the Florida Security and Public Deposits Act, as required by Chapter 280, Florida Statutes, and are considered fully insured.

NOTE 3: INVENTORIES

Inventories consisted of the following as of September 30, 2015:

NOTE 6: PROPERTY TAXES

Property taxes are levied on November 1 of each year, and are due and payable upon receipt of the notice of levy. The Lee County Tax Collector's office bills and collects property taxes on behalf of the District. The tax rate levied upon all of the taxable property in the Lee County Hyacinth Control District for the fiscal year ended September 30, 2015, was \$0.0277 per \$1,000 of assessed taxable property value. Property tax revenue is recognized in the fiscal year for which the taxes are levied.

On May 1 of each year, unpaid taxes become a lien on the property. The past due tax certificates are sold at public auction prior to June 1, and the proceeds collected are remitted to the District.

NOTE 7: STATE OF FLORIDA PENSION PLANS

Defined Benefit Plans

The District participates in two defined benefit pension plans that are administered by the State of Florida, Department of Management Services, Division of Retirement. The plans provide retirement, disability or death benefits to retirees or their designated beneficiaries. Chapter 121, Florida Statutes, establishes the authority for benefit provisions. Changes to the law can only occur through an act of the Florida Legislature. The State of Florida issues a publicly available financial report that includes financial statements and required supplementary information for the plans. That report may be obtained by writing to the Division of Retirement, PO Box 9000, Tallahassee, Florida, 32315-9000 or by calling (844) 377-1888.

The Florida Retirement System (FRS) Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan with a Deferred Retirement Option Program (DROP) available for eligible employees. The FRS was established and is administered in accordance with Chapter 121, Florida Statutes. Retirees receive a lifetime pension benefit with joint and survivor payment options. FRS membership is compulsory for employees filling regularly established positions in a state agency, county agency, state university, state college, or district school board, unless restricted from FRS membership under Sections 121.053 or 121.122, Florida Statutes, or allowed to participate in a defined contribution plan in lieu of FRS membership. Participation by cities, municipalities, special districts, charter schools and metropolitan planning organizations is optional.

The Retiree Health Insurance Subsidy (HIS) Program is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with Section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. To be eligible to receive a HIS benefit, a retiree under a state administered retirement system must provide proof of eligible health insurance coverage, which can include Medicare.

Benefits under the FRS Pension Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

NOTE 7: STATE OF FLORIDA PENSION PLANS (Continued)

Benefits Provided

Eligible retirees and beneficiaries receive a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to Section 112.363, Florida Statutes.

Contributions

The contribution requirements of plan members and the District are established and may be amended by the Florida Legislature. Employees are required to contribute 3.00% of their salary to the FRS. The District's contribution rates as of September 30, 2015, were as follows:

	FRS	HIS
Regular Class	5.60%	1.66%
Special Risk Class	20.38%	1.66%
Senior Management Service Class	19.77%	1.66%
Elected Officials	40.61%	1.66%
DROP from FRS	11.22%	1.66%
U.A. Regular Class - Retiree return to work	2.65%	1.66%

The District's contributions for the year ended September 30, 2015, were \$54,733 to the FRS and \$9,581 to the HIS.

Pension Liabilities and Pension Expense

In its financial statements for the year ended September 30, 2015, the District reported a liability for its proportionate shares of the net pension liabilities. The net pension liabilities were measured as of June 30, 2015 and the total pension liabilities used to calculate the net pension liability were determined by an actuarial valuation dated July 1, 2015. The District proportions of the net pension liabilities were based on the District's share of contributions to the pension plans relative to the contributions of all participating entities, actuarially determined.

Deferred outflows of resources related to employer contributions paid subsequent to the measurement date and prior to the employer's fiscal year end will be recognized as a reduction of the net pension liability in the reporting period ending September 30, 2016. Other pension-related amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Actuarial Assumptions

The total pension liability for each of the defined benefit plans, measured as of June 30, 2015, was determined by an actuarial valuation dated July 1, 2015, using the individual entry age normal actuarial cost method and the following significant actuarial assumptions:

	FRS	HIS
Inflation	2.60%	2.60%
Salary increases	3.25%	3.25%
Investment rate of return	7.65%	N/A
Discount rate	7.65%	3.80%

Mortality assumptions for both plans were based on the Generational RP-2000 with Projection Scale BB.

For both plans, the actuarial assumptions used in the valuation dated July 1, 2015 were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The following changes in key actuarial assumptions occurred in 2015:

FRS: No changes in key actuarial assumptions.

HIS: The municipal bond index rate and the discount rate used to determine the total pension liability decreased from 4.29% to 3.80%.

**Lee County Hyacinth Control District
Notes to Financial Statements
September 30, 2015**

NOTE 7: STATE OF FLORIDA PENSION PLANS (Continued)

Actuarial Assumptions (Continued)

The long-term expected investment rate of return was not based on historical returns, but instead was based on a forward-looking capital market economic model. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. For the FRS Pension Plan, the table below summarizes the target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class.

Asset Class	Target Allocation	Annual Arithmetic Return	Compound Annual (Geometric) Return
Cash	1%	3.2%	3.1%
Fixed income	18%	4.8%	4.7%
Global equity	53%	8.5%	7.2%
Real estate (property)	10%	6.8%	6.2%
Private equity	6%	11.9%	8.2%
Strategic investments	12%	6.7%	6.1%
	<u>100%</u>		

Discount Rate

The discount rate used to measure the total pension liability for the FRS Pension Plan was 7.65%. FRS' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Because the HIS Program is essentially funded on a pay-as-you-go basis, a municipal bond rate of 3.80% was used to determine the total pension liability for the program. The Bond Buyer General Obligation Bond 20-Bond Municipal Bond Index was used as the applicable municipal bond index.

Sensitivity Analysis

The following tables demonstrate the sensitivity of the net pension liability to changes in the discount rate. The sensitivity analysis shows the impact to the District's proportionate share of the net pension liability if the discount rate was 1.00% higher or 1.00% lower than the current discount rate.

Pension Plans' Fiduciary Net Position

Detailed information about the pension plans' fiduciary net position is available in the State's separately issued financial reports.

Defined Contribution Plan

Pursuant to Chapter 121, Florida Statutes, the Florida Legislature created the Florida Retirement Investment Plan ("FRS Investment Plan"), a defined contribution pension plan qualified under Section 401(a) of the Internal Revenue Code. The FRS Investment Plan is an alternative available to members of the Florida Retirement System in lieu of the defined benefit plan. There is a uniform contribution rate covering both the defined benefit and defined contribution plans, depending on membership class. Required employer contributions made to the plan during the year ended September 30, 2015, totaled \$2,553

NOTE 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

On September 14, 2015 the District Commission established the Lee County Mosquito Control District/Lee County Hyacinth Control District Retiree Health Insurance Trust Fund (the "Trust") for the purpose of accumulating, investing, and managing funds necessary to meet the costs of providing health and/or life insurance to retirees of the Other Post Employment Benefit Plan ("OPEB"). The Plan is a cost-sharing multiple-employer defined benefit OPEB plan administered by the District to provide medical and life insurance benefits to eligible retirees and their dependents. The Plan covers participant employees at the District and Lee County Hyacinth Control District. The District Commission approves all plan provisions and amendments. Separate financial statements of the plan are not available.

The Plan has adopted Governmental Accounting Standards Board (GASB) Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, and Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. In addition to other disclosures, the GASB requires for the current year and each of the two preceding years, annual OPEB cost, percentage of annual OPEB cost contributed and the net OPEB obligation at the end of the year. The required information is presented later in this note.

From an accrual accounting perspective, the cost of postemployment healthcare benefits generally should be associated with the periods in which the cost occurs, rather than in the future year when it will be paid. The District recognizes the costs of postemployment healthcare in the year when the employee services are received, reports the accumulated liability from prior years, and provides information useful in assessing potential demands on the District's future cash flows.

NOTE 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Plan Description. The Lee County Hyacinth Control District provides post-employment health care and dental insurance benefits (OPEB) for retired employees and their spouses through a cost-sharing multiple-employer defined benefit plan. The benefits, benefit levels, employee contributions are employer contributions are governed by the District and can be amended by the District at any time.

The District contributes a portion of the active health and dental premiums, 75% and 50%, respectively, for retirees and covered spouses participating in the District's group insurance plans who were hired prior to July 1, 2011. Retirees and covered spouses participating in the District's group's insurance plans who were hired after July 1, 2011 will be asked to pay the full blended premium for any coverages elected.

In June 2012, the District amended the health benefit policy to increase the service requirement from 6 years to 10 years. However, the prior eligibility requirements remain in effect for anyone hired prior to July 2, 2011, who meets the 6 year service requirement and retires by June 2015.

At October 1, 2012, the date of the most recent plan valuation, the Trust covered 18 members (12 active plan members and 6 retirees and/or qualifying family members receiving benefits). When the retiree reaches eligibility age for Medicare, Medicare must become the primary provider; the District would then provide the supplemental coverage for the remainder of the benefit period.

Funding Policy. The contribution requirements of plan members and the District are established and may be amended by the District Commission. The contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the District Commission. These contributions are neither mandated nor guaranteed. The District has retained the right to unilaterally modify its payment for retiree health care and life insurance benefits. The projection of benefits for financial reporting purposes does *not* explicitly incorporate the potential effects of legal or contractual funding limitations.

For the 2015 fiscal year, the District contributed \$281,240 to the plan, including \$31,240 for current premiums (72 percent of total premiums) and an additional \$250,000 to prefund benefits. Plan members receiving benefits contributed \$12,393, or 28 percent of the total premiums through their required contributions.

NOTE 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Annual OPEB Cost and Net OPEB Obligation. The District's annual other postemployment benefit (OPEB) cost (expense) is equal to the ARC (annual required contribution) with two required adjustments that, together, are designed to keep accounting and actual valuations in sync going forward when an employer has contributed less or more than the ARC in past years. For an employer with no Net OPEB Obligation, Annual OPEB cost is equal to the ARC. The OPEB obligation is a liability recognized in an employer's government-wide statement of net position, that is essentially the cumulative difference between the Annual OPEB Cost determined in accordance with GASB standards and the amounts actually contributed in relation to the ARC.

The following table shows the components of the District's annual OPEB cost for the year changes in the District's net OPEB obligation.

Valuation Date	10/1/2012
Annual required contribution	\$ 265,410
Interest on NET OPEB Obligation	82,941
Adjustment to ARC	(55,294)
<hr/>	
Annual OPEB Cost	293,057
Estimated net contributions made	(281,240)
<hr/>	
Increase in Net OPEB obligation	11,817
Net OPEB obligation - beginning of year	1,658,811
Net OPEB obligation - end of year	\$ 1,670,628
<hr/>	

Calculations are based upon the types of benefits provided under the terms of the OPEB plan at the time of the valuation and on the pattern of sharing costs between the employer and plan members to that point. The District's annual OPEB cost and related contribution information was as follows:

Fiscal Year Ended	Annual OPEB Cost	Employer contributions toward OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
9/30/2014	\$ 293,057	\$ 281,240	96.0%	\$1,670,628
9/30/2013	228,723	48,151	21.1%	1,658,811
9/30/2012	254,400	57,361	22.5%	1,095,610

Funded Status and Funding Progress. As of the most recent actuarial valuation date, October 1, 2012, the funded status of the plan was as follows:

Actuarial Valuation Date	10/1/2012
Plan Assets at Fair Value	\$ -
Actuarial Accrued Liability	2,260,085
Unfunded AAL (UAAL)	2,260,085
Funded Ratio	0.0%
Covered Payroll	NA
UAAL as a Percentage of Covered Payroll	NA

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer (ARC) are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress is presented as required supplementary information following the notes to the financial statements.

Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations.

In any long-term actuarial valuation, certain assumptions are made regarding the population, future employment, termination, mortality, the healthcare cost rate, investment discount rate and the benefits provided. The following simplifying assumptions were made:

Mortality Rate. RP-2000 Combined Healthy Mortality Table.

Interest Rate. 5% per year, compounded annually, net of investment related expenses.

Retirement rates. 100% are assumed to retire at age 62 and 6 years of service or upon completion of 30 years of service, regardless of age. Service-incurred disabled employees retire immediately, while non-duty related disabled employees retire upon completion of at least 6 years of service.

NOTE 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Health Care Participation. 100% participation assumed, with 80% electing spouse coverage.

Dental Care Participation. 60% participation assumed, with 40% electing spouse coverage.

Healthcare and dental cost trend rate. 7.5% in 2014 decreasing 1% each year until the ultimate rate of 4.5% in fiscal 2017.

Health insurance premiums. October 1, 2011 health insurance premiums for both active employees and retirees were used as the basis for calculation of the present value of total benefits to be paid.

Funding method. Entry age normal actuarial cost method (level dollar).

Amortization period. 30 year amortization period with 30 years remaining.

Payroll growth rate. 0% payroll growth rate was assumed.

NOTE 10: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. Insurance coverage for risk of loss is purchased from commercial insurance companies for general, automobile and herbicide applications with some self-insured portions. Buildings have a deductible of \$2,500 for most claims but the deductible is 5% of the insured value in the event of a hurricane. The District retains the total risk of loss for a number of buildings as they are not insured. The District does not insure vehicles for collision damage.

As of September 30, 2015 the District is insured for pollution from vehicles carrying herbicides and/or fuel and for worker's compensation. During fiscal year ended September 30, 2015, there were no claims for pollution. Worker's compensation coverage is \$1,000,000 for bodily injury by accident for each accident.

In November of 2014, the District obtained insurance coverage for risk of loss for pollution from vehicles carrying pesticides and/or fuel. In April of 2015, the District obtained insurance coverage for risk of loss for workers compensation.

The District maintains employee health insurance coverage from a commercial company for employees, retired employees and their eligible dependents. For the fiscal year ended September 30, 2015, the district reported incurred health insurance expense of \$187,700. There have been no claims in excess of insurance coverage as of September 30, 2015.

NOTE 11: RELATED PARTIES

The Lee County Mosquito Control Credit Union (LCMCCU), a state chartered natural person credit union, is owned and operated by current and retired District employees at the Districts' main location in Lehigh Acres, Florida as an employee benefit. As of September 30, 2015 LCMCCU had total assets of \$381,500. The District provides LCMCCU with District space and part-time personnel. The assets, liabilities, and net members' equity in the LCMCCU are not included as a component unit of the District.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners
Lee County Hyacinth Control District
Fort Myers, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Lee County Hyacinth Control District (the "District"), as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise District's basic financial statements, and have issued our report thereon dated June 30, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

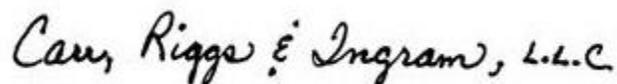

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance and other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Board of Commissioners
Lee County Hyacinth Control District
Fort Myers, Florida

Report on the Financial Statements

We have audited the financial statements of the Lee County Hyacinth Control District (the "District"), as of and for the fiscal year ended September 30, 2015, and have issued our report thereon dated June 30, 2016.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and Chapter 10.550, Rules of the Auditor General.

Other Reports and Schedule

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, a Schedule of Findings an Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, Section 601, regarding compliance requirements in accordance with Chapter 10.550, Rules of Auditor General. Disclosures in those reports and schedule, which are dated June 30, 2016, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Finding 2014-001 has been addressed and is no longer relevant.

Financial Condition

Section 10.554(1)(i)5.a., Rules of the Auditor General, requires that we report the results of our determination as to whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific conditions met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. This assessment was done as of the fiscal year end.

Annual Financial Report

Section 10.554(1)(i)5.b., Rules of the Auditor General, requires that we report the results of our determination as to whether the annual financial report for the District for the fiscal year ended September 30, 2015, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2015. In connection with our audit, we determined that these two reports were in agreement.

Special District Component Units

Section 10.554(1)(i)5.d, Rules of the Auditor General, requires that we determine whether or not a special district that is a component unit of a county, municipality, or special district, provided the financial information necessary for proper reporting of the component unit, within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we determined that all special district component units provided the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

Other Matters

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we do not have any additional items to communicate.

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we do not have any additional items to communicate.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT’S REPORT IN ACCORDANCE WITH SECTION 218.415, FLORIDA STATUTES, LOCAL GOVERNMENT INVESTMENT POLICIES

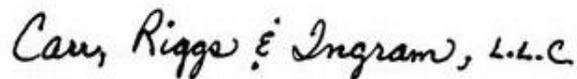

Board of Commissioners
Lee County Hyacinth Control District
Fort Myers, Florida

We have examined Lee County Hyacinth Control District’s, (the “District”), compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2015. Management is responsible for the District’s compliance with those requirements. Our responsibility is to express an opinion on the District’s compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the District’s compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2015.

This report is intended solely for the information and use of management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
