Lehigh Acres: Understanding local services

MALBAG
Thanks to doctor, paramedics

A huge thank you to Dr. Kelly and her staff for the great care. In Fort Myers, I had a stroke and was transferred to Lehigh Acres, and my city was always at my side, working to save my life.

I have spent many a morning walking the great beaches around Fort Myers. Yesterday started at a usual day, but quality changed into a scary one. I had some sort of allergic reaction that quickly spread a rash all over my body, affected my eyesight, and my face was very dry and itchy to touch. Luckily my mother, Mary Aparigo, and I happened to have this occur, in front of Dr. Kelly, who was there at the hospital.

They were able to help call 911, and we were driven to the hospital in just under half an hour of the paramedics.

After the emergency, I was to be sent to Lehigh Acres Community Hospital, to be put in a hospital bed and be treated.

Lehigh Acres Community Hospital has been serving the community since 1993. The hospital has undergone significant expansion during the last 10 years, including a new psychiatric wing, a new cancer center, and a new emergency department.

Lehigh Acres Community Hospital is located at 8012 Lehigh Acres Blvd, Lehigh Acres, FL 33974.
