INDEPENDENT AUDITORS' REPORT

Board of Commissioners Lee County Hyacinth Control District Fort Myers, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of the Lee County Hyacinth Control District (the District), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise Lee County Hyacinth Control District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the Auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Lee County Hyacinth Control District as of September 30, 2021, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2022, on our consideration of the Lee County Hyacinth Control District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Lee County Hyacinth Control District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lee County Hyacinth Control District's internal control over financial reporting and compliance.

Lee County Hyacinth Control District Management's Discussion and Analysis

We, as management of the Lee County Hyacinth Control District (the District), offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended September 30, 2021. The information presented in this MD&A should be considered in conjunction with the accompanying financial statements.

District Highlights:

- The Lee County Hyacinth Control District is an independent special district, which was created under Chapter 67-1629, Florida Statutes, and recreated under 98-462. It is governed by a seven member Board of Commissioners. The commissioners are elected for a four-year term.
- The District employs eight full-time employees.
- The primary location for operations is at the District headquarters in Lehigh Acres at the old Buckingham Army Airfield. The District and its operations are located in Lee County, which is located on the southwest coast of Florida, near the City of Fort Myers.
- Hyacinth control services were provided to residents and the public at large within the
 District's boundary in Lee County and along the entire length of the Caloosahatchee River to
 the western edge of Lake Okeechobee during the fiscal year ended September 30, 2021.

Financial Highlights:

- Total net position increased by \$413,017 between fiscal years. This increase is discussed further in the government-wide financial analysis.
- Total liabilities decreased by \$953,587 between the two fiscal years. This is primarily due to a decrease in both the net pension liability for the Florida Retirement System and net Other Post-Employment Benefits (OPEB) liability.
- At the close of the current fiscal year, the ending fund balance was \$1,307,426, an increase of \$119,370, or 10%, from the 2020 ending fund balance of \$1,188,056.
- Of the ending fund balance, \$108,832 is non-spendable, consisting of inventories and prepaid expenses, \$51,511 is assigned for the fiscal year end September 30, 2022, budgeted decrease in fund balance and \$1,147,083 is available for spending at the District's discretion (unassigned fund balance).

Overview of the Financial Statements:

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. Most revenue is collected via *ad valorem* taxes, and the basic financial statements are comprised of the following components: 1) Government-wide Financial Statements, 2) Fund Financial Statements, which include governmental funds that will be described later in this analysis, and 3) Notes to Financial Statements.

Government-Wide Financial Statements:

Government-wide financial statements are intended to allow the reader to assess a government's operational accountability. Operational accountability is defined as the extent to which the government has met its operating objectives efficiently and effectively, using all resources available for that purpose, and whether it can continue to meet its objectives for the foreseeable future.

The Statement of Net Position (Page 11) presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. The District's capital assets (property, plant, and equipment) are included in this statement and reported net of their accumulated depreciation.

The Statement of Activities (Page 12) presents revenue and expense information showing how the District's net position changed during the fiscal year. Both statements are measured and reported using the economic resource measurement focus (revenues and expenses) and the accrual basis of accounting (revenue recognized when earned and expense recognized when cost is incurred).

Fund Financial Statements:

The District accounts for its services in a general governmental fund. A fund is a grouping of related accounts that is used to maintain financial control over resources that have been segregated for specific activities or objectives. Governmental funds are used to account for the sources, uses, and balances of a government's expendable general government financial resources (and the related current liabilities). The main focus is on how money flows into and out of those funds and the balances left at year-end that are available for spending.

The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Governmental Fund Financial Statements begin on page 13 and provide a more detailed look at the District's most significant activities. An accounting method called modified accrual accounting is utilized to measure cash and all other financial assets that can readily be converted to cash. These statements provide a detailed short-term view of the general government operations and the basic services provided. You will find reconciliations on pages 14 and 16 that convert the data to an economic resource measurement focus and the accrual basis of accounting for use in the government-wide financial statements.

Notes to Financial Statements:

The notes to the financial statements explain in detail some of the data contained in the preceding statements and begin on page 18. These notes are essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis:

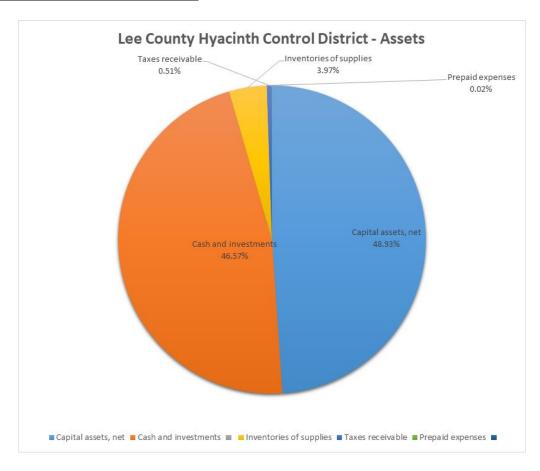

Net position may serve as a useful indicator of an agency's financial position. The District's net position as of September 30, 2021 was \$665,274. Its revenues, which include property taxes, investments, and miscellaneous income, totaled \$2,096,870 (general revenue plus program revenue). Total program expenses were \$1,683,793.

Fifty three percent of the District's assets represent its investment in capital assets and herbicide chemicals inventory. The District utilizes and consumes these assets in order to safely provide effective hyacinth control to the citizens within the District's boundaries. All cash and investments are invested pursuant to F.S. 218.415 (17) in deposit accounts with banks designated by the Florida Chief Financial Officer as qualified public depositories.

Summary of Net Position

	09/30/21 09/30/20		 Oifference	
Current and Other Assets	\$	1,394,642	\$ 1,243,869	\$ 150,773

Unrestricted		(669,319)	 (1,079,600)	 410,281
Total Net Position	\$	665,274	\$ 252,197	\$ 413,077

Summary of Net Position (Continued)

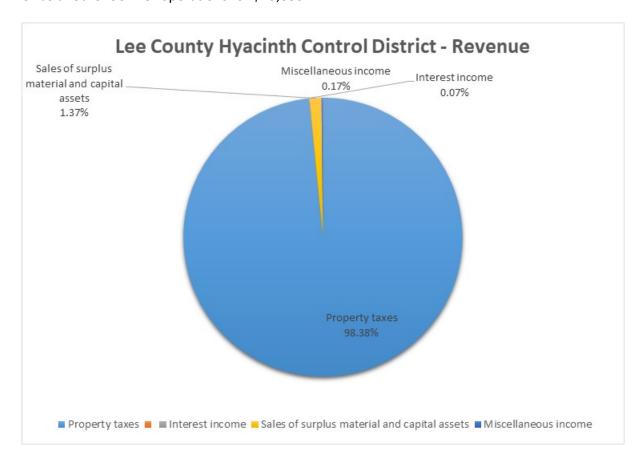

During the past year, total assets increased by \$153,569 and total liabilities decreased by \$953,587. Cash and investments increased \$170,077 and was offset due to a decrease in inventory and taxes receivable. In accordance with the Board's operating budget plan no contribution was made to the Retiree Health Insurance Trust for future health benefits for qualifying employees in 2021. The book value of capital assets increased due to the purchase of three new trucks and an SUV. Total liabilities decreased primarily due to the annual adjustment for the net pension liability and the Other Post-Employment Benefits (OPEB) liability. The adjustment, based on actuarial calculations, decreased the liability for the District's share of the Florida Retirement System. The actuarially calculated adjustment for the OPEB liability decreased due to plan assumptions and experience. Deferred outflows decreased by \$55,937 and deferred inflows increased by \$736,758. These increases and decreases related to actuarial estimates for pension and retiree benefit costs. Net position increased by \$413,077 primarily due to the annual adjustment for Other Post-Employment Benefits and net pension liability mentioned above.

Summary of Net Position (Continued)

In fiscal year 2021, total fund revenue increased by \$36,704. The Board adopted the *ad valorem* tax rate of .0221 mils and there was only a small increase in *ad valorem* from growth in the District's boundaries. Property taxes represent 98.38% of the District's revenues. Miscellaneous revenue increased during the year due to funds received from the sale of surplus equipment the District no longer needed.

Total program expenses decreased by \$828,709 from 2020. The decrease is due to lower actuarial expense adjustments for the Other Post-Employment Benefit liability and pension liabilities in the Florida Retirement System.

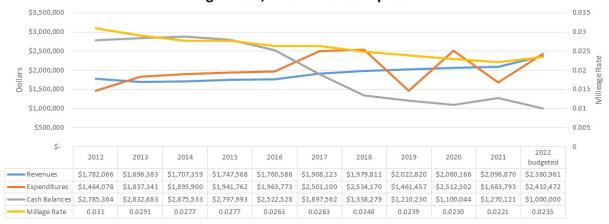

During 2021 the District purchased and outfitted three new trucks for operations for \$98,000 as well as another SUV for operations for \$23,000.

Lee County Hyacinth Control District Millage Rates, Revenues and Expenses

The chart above reflects revenues, expenses, and millage rates for the past ten years and projections for the upcoming fiscal year (FY 2020-2021). For more information on the 2022 budgeted revenues and expenditures, refer to the "Economic Factors and Next Year's Budget and Rates" section on page 10.

Budgetary Highlights:

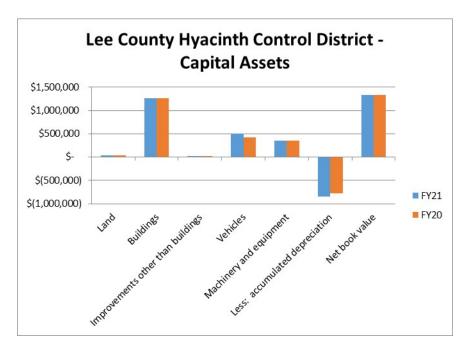

The District adopts an annual budget on a GAAP basis. The budget incorporates input from the Board of Commissioners, District staff, and citizens within the District regarding what services to provide and how to pay for them.

The budget also authorizes the District to obtain funds from identified sources to finance these current period activities. The Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund is provided on page 17 and denotes changes in the budget from the original to the final budget. The comparison statement uses the GAAP basis of accounting and is presented using the same format, language, and classifications as the original legal budget document.

Revenue variances from the original budget as compared to the final budget are depicted on page 17. The difference between the final amended budgeted expenditures and actual expenditures represents a positive variance of \$354,526. The variance is due primarily to a net effect of being under budget for employee benefits, general operating expenditures, and insurance.

Capital Asset and Debt Administration:

The District's investment in capital assets at year-end is \$1,334,593 (net of accumulated depreciation) which includes property, plant, and equipment with a threshold of \$5,000 and an estimated useful life of more than one year. Assets are recorded at the lesser of cost when purchased or constructed and at fair value at the date of donation and are depreciated utilizing the straight-line method.

Net book value	\$ 1,334,593	\$	1,331,797	

At September 30, 2021, the District had no long-term debt; its other long-term liabilities were comprised of accrued compensated absences, net OPEB obligation payables, and net pension liabilities for the District's portion of the Florida Retirement System pension liability. For more information on accrued compensated absences or postemployment benefits other than pensions, please see Note 1 on page 22 and Note 4 on page 35, respectively, of the Notes to Financial Statements. For more information on the Florida Retirement System pension liability see Note 3 on page 29. For more information on capital assets, please see Note 2 on page 28, of the Notes to Financial Statements.

Economic Factors and Next Year's Budget and Rates:

On September 30, 2021, the Board of Commissioners approved budgeted revenues of \$2,380,961 for fiscal year 2022. The Board opted to adopt a tax increase millage rate of .0235 mills in keeping with their plan to increase fund balance and maintain current service levels. The rate of .0235 per thousand dollars produced Ad Valorem taxes in the amount of \$2,379,961, an increase of \$333,961 over the prior year. Property taxes are the largest source of revenue for the Lee County Hyacinth Control District.

Budgeted expenditures increased for fiscal year 2022 to \$2,432,472. Notable equipment purchases budgeted for 2022 include a new spray truck and a new SUV.

Contacting the District's Financial Management:

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Questions concerning any of the information found in this report or requests for additional information should be directed to the Executive Director, Lee County Hyacinth Control District, 15191 Homestead Road, Lehigh Acres, Florida 33971.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Organization

The Lee County Hyacinth Control District (the District) is an independent special district created to perform Hyacinth control and suppression in Lee County, Florida, in accordance with Chapter 388, Florida Statutes. The District was created by the Laws of Florida, Chapter 67-1629 and recreated by Chapter 98-462.

Reporting Entity

The business and affairs of the District are governed by a board of seven commissioners who are elected for terms of four years. The accounting policies of the District conform to generally accepted accounting principles (GAAP) as applied to governmental units. The more significant accounting policies used by the District are described below.

Governmental Accounting Standards Board (GASB) requires the financial statements of a reporting entity to include its component units, if any. A component unit is a legally separate organization for which the elected officials of the primary government or financial reporting entity are financially accountable. Based on the aforementioned criteria, there are no component units included in the District's financial statements.

Government-Wide and Fund Financial Statements

The government-wide financial statements consist of a statement of net position and a statement of activities that report information about the District as a whole. The statement of net position reports all financial and capital resources.

The statement of activities demonstrates the degree to which the direct expenses of the District's program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include: 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given program, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements are presented to report additional and detailed information about the District. Fund financial statements accompany the government-wide financial statements and present a summary reconciliation to explain differences between the data reported in the governmental funds and the data reported for the corresponding governmental activities in the government-wide financial statements.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus and Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the District.

Fund Financial Statements

The District reports the following major governmental fund:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the general government.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Information

Budgetary basis of accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund.

The appropriated budget is prepared by fund and function. Transfers and amendments can be made throughout the year by approval of the Board of Commissioners. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the function level.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity

Cash

The District's cash is cash on hand and demand deposits.

Investments

The District's investments are held by Florida Fixed Income Trust Fund, Florida PRIME (SBA) and Florida SAFE. Florida Fixed Income Trust Fund, Florida PRIME and Florida SAFE meets all of the specified criteria in Section 150: *Investments* to qualify to elect to measure their investments at amortized cost. Accordingly, the fair value of the District's position in the pool is equal to the value of the pooled shares.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of expendable supplies and vehicle repair parts. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased. Certain parts held in inventory were acquired from other governmental agency at values established by governmental agencies. The District periodically adjusts those values to reflect the lower of cost or net realizable value. No allowance was recorded by the District for the period ending September 30, 2021.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Receivables and Payables

Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met. Intergovernmental revenues are recognized at the time of receipt. Investment earnings are recognized when earned.

Capital Assets

Capital assets, which include property, plant and equipment are reported in governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

As the District constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	40
Improvements other than buildings	20
Vehicles, machinery and equipment	5 - 20

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then.

The District has two (2) items that qualify for reporting as deferred outflows of resources, the *deferred* amounts related OPEB and the *deferred* amounts related to pensions, both reported in the government-wide statements of net position. The deferred outflows related to pensions and OPEB are an aggregate of items related to pensions and OPEB as calculated in accordance with GASB Codification Section P20: Pension Activities — Reporting for Benefits Provided through Trusts That Meet Specified Criteria. The deferred outflows related to pensions and OPEB will be recognized as either pension/OPEB expense or a reduction in the net pension/OPEB liability in future reporting years.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

The District has two (2) items that qualify for reporting as deferred inflows of resources. The *deferred inflows related to pensions and OPEB* are an aggregate of items related to pensions and OPEB as calculated in accordance with GASB Codification Section P20: *Pension Activities* – *Reporting for Benefits Provided through Trusts That Meet Specified Criteria*. The deferred inflows related to pensions and OPEB will be recognized as a reduction to pension/OPEB expense in future reporting years.

Compensated Absences

The District's policy permits employees to accumulate earned but unused vacation benefits which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide financial statements. A liability for those amounts is recorded in the general fund only if the liability has matured as a result of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position, and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits (OPEB) Liability

For purposes of measuring the net OPEB liability, deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The District's proportionate share of OPEB amounts were further allocated to each participating employer based on the contributions paid by each employer. Investments are reported at fair value.

Categories and Classification of Fund Equity

Net position flow assumption — Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted — net position and unrestricted — net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted — net position to have been depleted before unrestricted — net position is applied.

Fund balance flow assumptions – Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund balance policies – Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Categories and Classification of Fund Equity (Continued)

The provisions of GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, specifies the following classifications:

Nonspendable fund balance – Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted fund balance – Restricted fund balances are restricted when constraints placed on the use of resources are either: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance – The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the District that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned fund balance – Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The governing council (council) has by resolution authorized the finance director to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Unassigned fund balance – Unassigned fund balance is the residual classification for the General Fund.

Minimum Fund Balance Policy

The District's policy is to maintain an adequate general fund unassigned fund balance to provide liquidity to meet seasonal shortfalls in cash flow, and reduce susceptibility to emergency or unanticipated expenditures and/or revenue shortfalls. The District adopted a financial standard to maintain a general fund minimum unassigned fund balance of approximately three months' worth of operating expenditures.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenues and Expenditures/Expenses

Program revenues – Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants that are restricted to meeting the operational or capital requirements of a particular function or segment. Charges to customers and grants are recorded as earned if collected within ninety days after year-end. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property taxes – Ad valorem property taxes are recorded as revenues in the fiscal year in which the taxes are due and collected within 60 days of fiscal year-end. Property taxes are levied on November 1 of each year, and are due and payable upon receipt of the notice of levy. The Lee County Tax Collector's office bills and collects property taxes on behalf of the District. The tax rate levied upon all of the taxable property in the Lee County Hyacinth Control District for the fiscal year ended September 30, 2021, was \$0.0221 per \$1,000 of assessed taxable property value. Property tax revenue is recognized in the fiscal year for which the taxes are levied.

On May 1 of each year, unpaid taxes become a lien on the property. The past due tax certificates are sold at public auction prior to June 1, and the proceeds collected are remitted to the District.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for expenditure of monies are recorded as reservations of budget, is employed as an extension of the statutory required budgetary process. At year-end, outstanding encumbrances represent material purchase commitments for goods and services which were ordered, budgeted, and appropriated, but had not been received or completed at date. Although encumbrances lapse at year-end, it is the intention to substantially honor these encumbrances under authority provided in the subsequent year's budget. For the fiscal year ended September 30, 2021, the district had no encumbrances from subsequent years.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make various estimates. Actual results could differ from those estimates.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

Management has evaluated events and transactions for potential recognition or disclosure through March 31, 2022, which is the date the financial statements were available to be issued. No subsequent events occurring after this date have been evaluated for inclusion in these combined financial statements.

Note 2: DETAILED NOTES ON ALL FUNDS

Deposits and Investments

As of September 30, 2021, \$250,000 of the District's bank balances is covered by federal depository insurance (FDIC). Monies invested in amounts greater than the insurance coverage are secured by the qualified public depositories pledging securities with the State Treasurer in such amounts required by the Florida Security for Public Depositories Act. In the event of a default or insolvency of a qualified public depositor, the State Treasurer will implement procedures for payment of losses according to the validated claims of the District pursuant to Section 280.08, Florida Statutes.

The investment program is established in accordance with the District's investment policy, pertinent bond resolutions and Section 218.45, Florida Statutes, which allows the District to invest in the Florida State Board of Administration intergovernmental investment pool or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act of 1969, direct obligations of the United States Government, obligations of the different agencies of the Federal Government, registered money market funds and accounts of state qualified public depositories.

The investing of public funds with the Florida State Board of Administration (SBA) - Local Government Surplus Funds Trust Fund is governed by Section 218.407, Florida Statutes. The SBA is under regulatory oversight of the State of Florida. The investment pool consists largely of corporate notes and commercial paper. On September 30, 2021, the District had \$574,529 invested. The fair value of the District's position in the pool is equal to the value of the pooled shares or amortized cost.

The Florida Surplus Asset Fund Trust (Florida SAFE) is a common law trust organized under the laws of the State of Florida as an intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act, as provided in Section 163.01 of the Florida Statutes. The investment pool consists of obligations guaranteed by the full faith and credit of the United States, U.S. government agency obligations, commercial paper, bank obligations and other obligations permitted by applicable Florida Statutes. At September 30, 2021, the District's share of Florida SAFE was \$520,189. The fair value of the District's position in the pool is equal to the value of the pooled shares or net asset value.

Note 2: DETAILED NOTES ON ALL FUNDS (Continued)

Deposits and Investments (Continued)

The Florida Fixed Income Trust (Florida FIT) is a common law trust organized under the laws of the State of Florida as an intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act, as provided in Section 163.01 of the Florida Statutes. The investment pool consists of obligations guaranteed by the full faith and credit of the United States, U.S. government agency obligations, commercial paper, bank obligations and other obligations permitted by applicable Florida Statutes. At September 30, 2021, the District's share of Florida FIT was \$5,434. The fair value of the District's position in the pool is equal to the value of the pooled shares or amortized cost.

Under GASB Codification I50: *Investments*, if a participant has an investment in a qualifying external investment pool that measures for financial reporting purposes all of its investments at amortized cost it should disclose the presence of any limitations or restrictions on withdrawals (such as redemption notice periods, maximum transaction amounts, and the qualifying external investment pool's authority to impose liquidity fees or redemption gates) in notes to the financial statements. As of September 30, 2021, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit the District's access to 100 percent of their account value in either external investment pool.

Custodial credit risk — Custodial credit risk for deposits is the risk in the event of the failure of a depository financial institution a government may not be able to recover deposits. Monies placed on deposit with financial institutions in the form of demand deposits, time deposits or certificate of deposits are defined as public deposits. The financial institutions in which the District places its deposits are certified as "qualified public depositories," as required under the Florida Security for Public Deposits Act. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

Interest rate risk – Interest rate risk is the possibility that interest rates will rise and reduce the fair value of an investment. The District's investment policy limits interest rate risk by requiring that an attempt be made to match investment maturities with known cash needs and anticipated cash flow requirements. In addition, investments of current operating funds are required to have maturities of no longer than twelve months.

Credit risk — Section I50: Investments of the GASB Codification requires that governments provide information about credit risk associated with their investments by disclosing the credit rating of investments in debt securities as described by nationally recognized statistical rating organizations. The District's investment policy limit investments to securities with specific ranking criteria.

Concentration risk — Section I50: Investments of the GASB Codification requires disclosures of investments in any one issuer that represents five percent or more of total investments, excluding investments issued or explicitly guaranteed by the U.S government, investments in mutual funds, external investments pools and other pooled investments. The District's investment policy does not address concentration risk.

Note 2: DETAILED NOTES ON ALL FUNDS (Continued)

Deposits and Investments (Continued)

As of September 30, 2021, all District investment funds are held in local government investment pools that are valued at amortized cost and not required to be categorized by fair value hierarchy level.

Deposits and investments as of September 30, 2021 consist of the following:

As of September,	2021
Cash in Bank	\$ 169,969
Florida SAFE	520,189
Florida Fixed Income Trust	5,434
Florida PRIME (SBA)	574,529
Cash and investments	\$ 1,270,121

Inventories

Inventories consisted of the following as of September 30, 2021:

	Carryin	Carrying	
	Amour	nt	
Chemicals	\$ 108,	273	
Total	\$ 108,	273	

Capital Assets

The following is a summary of changes in capital assets during the year ended September 30, 2021:

		Balance						Balance
	Oct	ober 1, 2020	- 1	ncreases	Decreases		Sep	tember 30, 2021
Non-depreciated assets:

Net pension liability		1,041,470				(651,433)		390,037		1,200
	\$	2,318,605	\$	5,460	\$	(1,089,066)	\$	1,234,999	\$	2,327

Note 3: STATE OF FLORIDA PENSION PLANS

Defined Benefit Plans

The District participates in two defined benefit pension plans that are administered by the State of Florida, Department of Management Services, Division of Retirement. The plans provide retirement, disability or death benefits to retirees or their designated beneficiaries. Chapter 121, Florida Statutes, establishes the authority for benefit provisions. Changes to the law can only occur through an act of the Florida Legislature. The State of Florida issues a publicly available financial report that includes financial statements and required supplementary information for the plans. That report is available from the Florida Department of Management Services' website (www.dms.myflorida.com).

The Florida Retirement System (FRS) Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan with a Deferred Retirement Option Program (DROP) available for eligible employees. The FRS was established and is administered in accordance with Chapter 121, Florida Statutes. Retirees receive a lifetime pension benefit with joint and survivor payment options. FRS membership is compulsory for employees filling regularly established positions in a state agency, county agency, state university, state college, or district school board, unless restricted from FRS membership under Sections 121.053 or 121.122, Florida Statutes, or allowed to participate in a defined contribution plan in lieu of FRS membership. Participation by cities, municipalities, special districts, charter schools and metropolitan planning organizations is optional.

The Retiree Health Insurance Subsidy (HIS) Program is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with Section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. To be eligible to receive a HIS benefit, a retiree under a state administered retirement system must provide proof of eligible health insurance coverage, which can include Medicare.

Note 3: STATE OF FLORIDA PENSION PLANS (Continued)

Benefits Provided

Benefits under the FRS Pension Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

Eligible retirees and beneficiaries receive a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to Section 112.363, Florida Statutes.

Contributions

The contribution requirements of plan members and the District are established and may be amended by the Florida Legislature. Employees are required to contribute 3.00% of their salary to the FRS.

The District's contribution rates as of September 30, 2021, were as follows:

	FRS	HIS
Regular Class	9.16%	1.66%
Special Risk Class	24.23%	1.66%
Senior Management Service Class	27.35%	1.66%
Elected Officials	49.76%	1.66%
DROP from FRS	16.68%	1.66%

The District's contributions for the year ended September 30, 2021, were \$82,952 to the FRS and \$10,959 to the HIS.

Pension Liabilities and Pension Expense

In its financial statements for the year ended September 30, 2021, the District reported a liability for its proportionate shares of the net pension liabilities. The net pension liabilities were measured as of June 30, 2021 and the total pension liabilities used to calculate the net pension liability were determined by an actuarial valuation dated July 1, 2021. The District's proportions of the net pension liabilities were based on the District's share of contributions to the pension plans relative to the contributions of all participating entities, actuarially determined.

Note 3: STATE OF FLORIDA PENSION PLANS (Continued)

Pension Liabilities and Pension Expense (Continued)

		FRS				
Net pension liability	\$	159,566	\$	230,471		
Proportion at:

Prior measurement date	0.	001895012%	0.001803005%			
Pension expense (benefit)	\$	815	\$	1,949		

Deferred Outflows/Inflows of Resources Related to Pensions

At September 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	FRS					HIS			
	Deferred Deferred Outflows Inflows		Deferred	Deferred Outflows		Deferred Inflows			
			Outflows Inflows						
	of	Resources	of Resources		of Resources		of Resources		
Differences between expected and actual experience	\$	27,350	\$	-	\$	7,712	\$	(97)	
Changes of assumptions		109,183		-		18,110		(9,496)	
Net difference between projected and actual earnings									
on pension plan investments		-		(556,687.00)		240		-	
Changes in proportion and differences between employer									
contributions and proportionate share of contributions		87,631		(19,806)		18,303		(21,940)	
Employer contributions subsequent to the measurement date		19,788		-		2,443			
Total	\$	243,952	\$	(576,493)	\$	46,808	\$	(31,533)	

Deferred outflows of resources related to employer contributions paid subsequent to the measurement date and prior to the employer's fiscal year end will be recognized as a reduction of the net pension liability in the reporting period ending September 30, 2022. Other pension-related amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ending September 30,	FRS	HIS	
2022	\$ (55,828)	\$	(4,600)
2023	(67,292)		2,611
2024	(102,145)		4,511
2025	(136,315)		5,677
2026	9,251		3,692
Thereafter	-		941
Total	\$ (352,329)	\$	12,832

Note 3: STATE OF FLORIDA PENSION PLANS (Continued)

Actuarial Assumptions

The total pension liability for each of the defined benefit plans, measured as of June 30, 2021, was determined by an actuarial valuation dated July 1, 2021, using the individual entry age normal actuarial cost method and the following significant actuarial assumptions:

	FRS	HIS
Inflation	2.40%	2.40%
Salary increases	3.25%	3.25%
Investment rate of return	6.80%	N/A
Discount rate	6.80%	2.16%

Morality assumptions for both plans were based on the PUB-2010 base tables projected generationally with Scale MP-2018.

For both plans, the actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018.

The following changes in key actuarial assumptions occurred in 2021:

FRS:

• The maximum amortization period was decreased to 20 years for all current and future amortization bases.

HIS:

• The municipal bond index rate and the discount rate used to determine the total pension liability decreased from 2.21% to 2.16%.

The long-term expected investment rate of return assumption for the FRS Pension Plan was not based on historical returns, but instead was based on a forward-looking capital market economic model. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption of 2.40%.

Note 3: STATE OF FLORIDA PENSION PLANS (Continued)

Actuarial Assumptions (Continued)

For the FRS Pension Plan, the table below summarizes the consulting actuary's assumptions based on the long-term target asset allocation.

Asset Class	Target Allocation	Annual Arithmetic Return	Compound Annual (Geometric) Return			
Carda	4.00/	2.40/	2.40/			
Cash	1.0%	2.1%	2.1%			
Fixed income	20.0%	3.8%	3.7%			
Global equity	54.2%	8.2%	6.7%			
Real estate (property)	10.3%	7.1%	6.2%			
Private equity	10.8%	11.7%	8.5%			
Strategic investments	3.7%	5.7%	5.4%			
	100%					

Discount Rate

The discount rate used to measure the total pension liability for the FRS Pension Plan was 6.80%. FRS' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Because the HIS Program is essentially funded on a pay-as-you-go basis and the depletion date is considered to be immediate, a municipal bond rate of 2.16% was used to determine the total pension liability for the program. The Bond Buyer General Obligation 20-Year Municipal Bond Index was used as the applicable municipal bond index.

Sensitivity Analysis

The following tables demonstrate the sensitivity of the net pension liability to changes in the discount rate. The sensitivity analysis shows the impact to the District's proportionate share of the net pension liability if the discount rate was 1.00% higher or 1.00% lower than the current discount rate.

			FRS						HIS		
		Cur	rent Discount					Cur	rent Discount		
	Decrease (5.80%)	Rate 1% Increase (6.80%) (7.80%)			19	6 Decrease (1.21%)		Rate (2.21%)	1% Increase (3.21%)		
Employer's proportionate share of the net pension liability	\$ 713,590	\$	159,566	\$	(303,536)	\$	266,447	\$	230,471	\$	200,997

Lee County Hyacinth Control District Notes to Financial Statements September 30, 2021

Note 3: STATE OF FLORIDA PENSION PLANS (Continued)

Pension Plans' Fiduciary Net Position

Detailed information about the pension plans' fiduciary net position is available in the State's separately issued financial reports.

Defined Contribution Plan

Pursuant to Chapter 121, Florida Statutes, the Florida Legislature created the Florida Retirement Investment Plan ("FRS Investment Plan"), a defined contribution pension plan qualified under Section 401(a) of the Internal Revenue Code. The FRS Investment Plan is an alternative available to members of the Florida Retirement System in lieu of the defined benefit plan. There is a uniform contribution rate covering both the defined benefit and defined contribution plans, depending on membership class. There were no required employer contributions during the year ended September 30, 2021.

Note 4: OTHER POSTEMPLOYMENT BENEFIT PLAN

The Plan has adopted Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.

Plan Description

The Lee County Hyacinth Control District provides post-employment health care and dental insurance benefits (OPEB) for retired employees and their spouses through a cost-sharing multiple-employer defined benefit plan, the Lee County Mosquito Control District/Lee County Hyacinth Control District OPEB Plan (the Plan). The benefits, benefit levels, employee contributions and employer contributions are governed by the Plan and can be amended by the Plan at any time. The Plan issues a publicly available financial report that includes financial statements and required supplementary information for the plans. That report may be obtained by writing to Lee County Hyacinth Control, 15191 Homestead Road, Lehigh Acres, FL 33971 or by calling (239) 694-2174.

Benefits provided

The District contributes a portion of the active health and dental premiums, 75% and 50%, respectively, for retirees and covered spouses participating in the District's group insurance plans who were hired prior to July 1, 2011. Retirees and covered spouses participating in the District's group insurance plans who were hired after July 1, 2011 will be asked to pay the full blended premium for any coverages elected.

In June 2012, the District amended the health benefit policy to increase the service requirement from 6 years to 10 years. However, the prior eligibility requirements remain in effect for anyone hired prior to July 2, 2011, who meets the 6 year service requirement and retires by June 2015.

Benefits provided (Continued)

When the retiree reaches eligibility age for Medicare, Medicare must become the primary provider; the District would then provide the supplemental coverage for the remainder of the benefit period.

Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the District Commission. The contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the District Commission. These contributions are neither mandated nor guaranteed. The District has retained the right to unilaterally modify its payment for retiree health care and life insurance benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

For the 2021 fiscal year, the District contributed \$-0- to the Plan to prefund future benefits. Plan members receiving benefits contributed \$19,223.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At September 30, 2021, the District reported a liability of \$769,952 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of September 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's portion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating Districts, actuarially determined. At September 30, 2021, the District's proportion was 10.78 percent.

For the year ended September 30, 2021, the District recognized a reduction of employee benefit expense, due to OPEB activity, of \$72,377. At September 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of			eferred Inflows
	R	esources		of Resources
Differences between expected and actual experience	\$	464	\$	(132,932)
Changes of assumptions				(172,967)
Net difference between projected and actual earnings				
on OPEB plan investments		=		(119,045)
Total	\$	464	\$	(424,944)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

The amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years ended September 30:	
2022	\$ (167,980)
2023	(87,631)
2024	(88,676)
2025	(80,193)
Total	\$ (424,480)

Actuarial assumptions

The total OPEB liability in the September 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Cost Method:	Entry Age
Inflation:	3.00%
Salary Increases:	3.25%
Discount Rate	6.00%
Investment Rate of Return:	6.00%
Initial Trend Rate	7.50%
Ultimate Trend Rate	4.00%
Years to Ultimate	53

Retirement Rates: 100% are assumed to retire at age 62 and 6 years of service or upon

completion of 30 years of service, regardless of age. Service-incurred disabled employees retire immediately, while non-duty related disabled employees retire upon completion of at least 6 years of

service.

Health Care Inflation: Initial rate of 7.50% in fiscal 2022, grading down to the ultimate

trend rate of 4.00% in fiscal 2075.

The mortality tables vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The health mortality rates also contain a provision to reflect future mortality improvements.

Actuarial Assumptions (Continued)

The total OPEB liability in the September 30, 2021 actuarial report was based on the PUB-2010 base table varies by member category and sex; projected generationally with Scale MP-2018.

The Long-Term Expected Rate of Return on OPEB Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the Long-Term Expected Rate of Return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long Term
		Expected Real
Asset Class Target Allocation	Target Allocation	Rate of Return
Domestic Equity	30%	8.40%
International Equity	10%	4.10%
Bonds	40%	3.20%
Real Estate	10%	5.60%
Convertibles	10%	8.00%
Total	100%	

Discount rate

The discount rate used to measure the total OPEB liability was 6.00 percent. The projection of cash flows used to determine the Discount Rate assumed that current District contributions will be made at the current contribution rate which is above the Actuarially Determined Contribution. Based on this assumption, the OPEB Plan's Fiduciary Net Position was projected to provide all future benefit payments.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate

The following presents the Net OPEB Liability of the District, as well as what the District's Net OPEB Liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current discount rate:

				Current	
	1	.% Decrease	Dis	count Rate	1% Increase
		5.00%		6.00%	7.00%
Net OPEB Liability	\$	1,029,366	\$	769,952	\$ 555,747

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rates

The following presents the Net OPEB Liability of the District, as well as what the District's Net OPEB Liability would be if it were calculated using healthcare cost trend rates that are one percentage-point lower or one percentage-point higher than the current healthcare cost trend rates:

			He	althcare Cost	
	1	% Decrease		Trend Rates	1% Increase
	3	.00%-6.50%		4.00%-7.50%	5.00%-8.50%
Net OPEB Liability	\$	1.029.366	\$	769.952	\$ 555.747

Note 5: RISK MANAGEMENT

The District maintains employee health insurance coverage from a commercial company for employees, retired employees and their eligible dependents. For the fiscal year ended September 30, 2021, the District reported incurred health insurance expense of \$141,218. There have been no claims in excess of insurance coverage as of September 30, 2021.

Lee County Hyacinth Control District Notes to Financial Statements September 30, 2021

Note 6: RELATED PARTIES

The District's Board of Commissioners is also the Board of Commissioners for the Lee County Mosquito Control District. The Lee County Mosquito Control District is an independent special district created to perform mosquito control and suppression in Lee County, Florida, in accordance with Chapter 388, Florida Statutes. The Lee County Mosquito Control District was created under the Laws of Florida, Chapter 98-461, and is funded by ad valorem tax revenues.

Both the District and the Lee County Mosquito Control District share facilities and equipment located at the Lee County Mosquito Control District's Buckingham complex. Mosquito Control District personnel perform a variety of support functions for the District such as finance, information technology, purchasing, fleet maintenance and facilities maintenance. The Executive Director of the Mosquito Control District is also the Executive Director of the District.

The costs of shared support functions provided by the Lee County Mosquito Control District are included in the budgetary process and are reimbursed by the District through allocations.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners Lee County Hyacinth Control District Fort Myers, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Lee County Hyacinth Control District, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 31, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Lee County Hyacinth Control District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Board of Commissioners Lee County Hyacinth Control District Fort Myers, Florida

Report on the Financial Statements

We have audited the financial statements of the Lee County Hyacinth Control District (the District), as of and for the fiscal year ended September 30, 2021, and have issued our report thereon dated March 31, 2022.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated March 31, 2022, should be considered in conjunction with this management letter.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The Lee County Hyacinth Control District was established as described in Note 1. There were no component units related to the District.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the District met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Specific Information

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6, Rules of the Auditor General, the Lee County Hyacinth Control District reported:

- a) The total number of district employees compensated in the last pay period of the district's fiscal year as 9.
- b) The total number of independent contractors to whom nonemployee compensation was paid in the last month of the district's fiscal year as -0-.
- c) All compensation earned by or awarded to employees, whether paid or accrued, regardless of contingency as \$669,333.
- d) All compensation earned by or awarded to nonemployee independent contractors, whether paid or accrued, regardless of contingency as \$16,500.
- e) Each construction project with a total cost of at least \$65,000 approved by the district that is scheduled to begin on or after October 1 of the fiscal year being reported, together with the total expenditures for such project as \$-0-.
- f) A budget variance based on the budget adopted under Section 189.016(4), Florida Statutes, before the beginning of the fiscal year being reported if the district amends a final adopted budget under Section 189.016(6), Florida Statutes, as \$-0-.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)7, Rules of the Auditor General, the Lee County Hyacinth Control District reported:

- a) The millage rate or rates imposed by the district as 0.0221.
- b) The total amount of ad valorem taxes collected by or on behalf of the district as \$2,062,929.
- c) The total amount of outstanding bonds issued by the district and the terms of such bonds as \$-0-.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Directors, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT IN ACCORDANCE WITH SECTION 218.415, FLORIDA STATUTES, LOCAL GOVERNMENT INVESTMENT POLICIES

Board of Commissioners Lee County Hyacinth Control District Fort Myers, Florida

We have examined Lee County Hyacinth Control District (the District), compliance with the requirements of Section 218.415, Florida Statutes, Local Government Investment Policies, during the year ended September 30, 2021. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that our examination provides a reasonable basis for our opinion.

Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2021.

This report is intended solely for the information and use of management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
